Bungee.de

A brand from the Jochen Schweizer Group

1989

Bungee.de specializes in organizing turnkey corporate events and extreme sports experiences. As the national branch of the Jochen Schweizer Group, we have over **30 years of experience** in this sector and have provided unforgettable experiences to well over a million people.

The first commercial bungee facility was opened in December 1989 at the rowing regatta in Oberschleißheim, where in the same location Olympians competed for medals in 1972, now participants can still enjoy views of Munich, the Alps, and the turquoise water of the regatta course before taking the plunge into the depths.

today

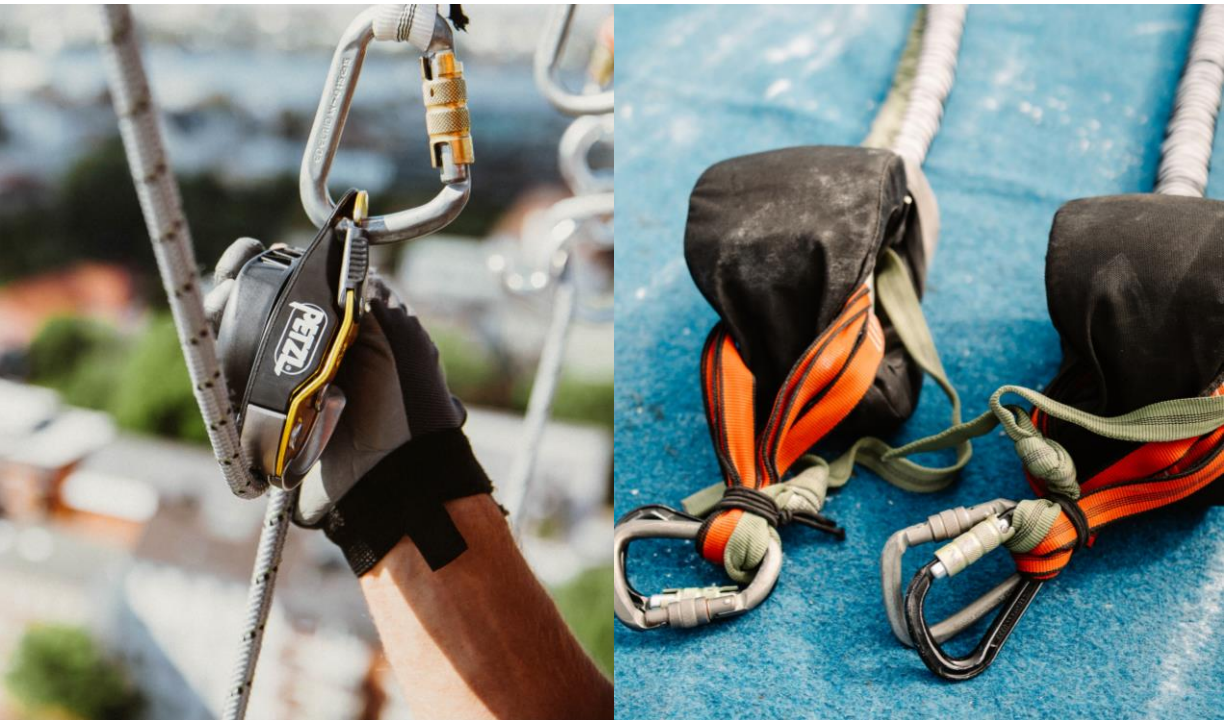

From Oberschleißheim, spectacular business events have grown all over the world, along with numerous bungee and house running facilities. In addition to several world records and event awards, what sets us apart are the unforgettable memories of our participants.

Material & Technic

During the past decades, the technical processes and materials used have naturally evolved, but the adrenaline and enthusiasm have remained. Always adapted to the latest safety standards, we now operate bungee jumping according to the New Zealand standard, and all our systems are developed in collaboration with German TÜV Süd Product & Service.

Our bungee cords are produced in Germany according to TÜV specifications, and all equipment undergoes rigorous regular inspections.

1.2 Bungee Jumping

OVER THE EDGE

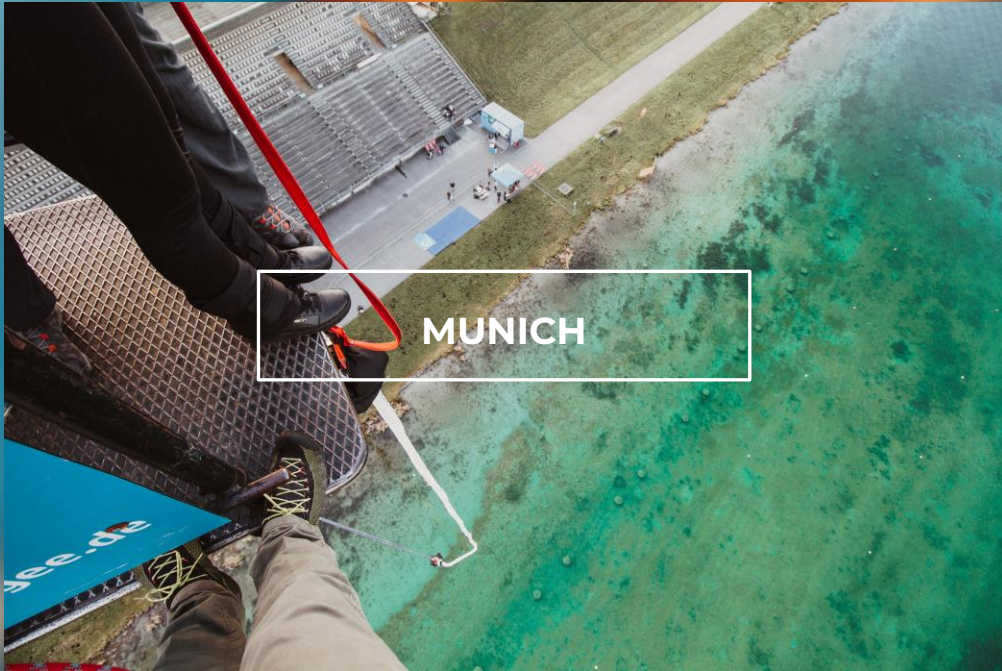

The voluntary leap from a bungee cord is perhaps the most defining experience in the extreme sports sector and undoubtedly the biggest attraction for spectators. Originally born on the island of Vanuatu, we bring the modern form of bungee jumping to your company premises. Overwhelming emotions and the unforgettable experience will forever connect your employees with your company. We offer the opportunity to jump from a mobile crane from a height of 55 meters directly at your location, or you can utilize one of our two bungee jumping locations:

// Hamburg

After the athletic ascent of our 250-ton harbor crane, your employees will be rewarded with a fantastic view over the Hamburg harbor before embarking on the much faster return journey via bungee jump

// München

At the site of athletic excellence, the Munich Olympic Rowing Regatta, participants will enjoy the view over the city and the nearby Alps before surrendering to gravity from a height of 50 meters. Upon request, participants can also take a refreshing dip in the turquoise waters of the regatta facility.
